WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Summary Risk Indicator (SRI):

Lower Risk

Higher Risk

The SRI assumes that you keep the product for 5 years, which is the recommended minimum holding period. The SRI is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the value of the underlying assets. The Fund Manager has classified this product as 3 out of 7 which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the Sub-Fund's capacity to pay you.

The risk category is not a target or a guarantee and may change overtime as the underlying investments' returns volatility changes. This product does not include any protection from future market performance so you could lose part of or your entire investment.

The Sub-Fund may not employ leverage.

You are advised to read and consider the risk factors described in the Prospectus of the Fund and the Sub-Fund's Supplement.

WHAT HAPPENS IF AIFCAP MANAGERS LIMITED IS UNABLE TO PAY OUT?

Losses are not covered by an investor's compensation or guaranteed scheme. You will not face a financial loss should the Fund Manager default as the Sub-Fund is a separate entity with segregated assets.

EFG Bank (Luxembourg) S.A. (the "Depositary") will perform safekeeping duties for the Sub-Fund's cash assets. In the event of the Depositary's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, such default risk is limited due to the rules set out in Article 19 of the AIFM Law and in the Commission Delegated Regulation (EU) 231/2013, which require a segregation of assets between those of the Depositary and the Sub-Fund. The Depositary is liable to the Sub-Fund for the loss by the Depositary or one of its delegates of assets held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control. For all other losses, the Depositary is liable in case of its negligent or intention failure to properly fulfil its obligations pursuant to the AIFM Law and any applicable rules and regulations.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended Holding Period: 5 years

Given the long-term investment horizon of the Sub-Fund, a minimum holding period of 5 years is recommended. Investors have the option to redeem shares on a monthly basis. A redemption fee of 3% is applicable for shares redeemed during the first and second years from the relevant subscription day, decreasing to 1% in the third year. No redemption fees will be imposed for shares redeemed from the fourth year onward from the relevant subscription day. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

HOW CAN I COMPLAIN?

As an investor in the Sub-Fund, you have the right to complain to the Fund Manager at the Fund's registered office or to the Fund Manager's registered office at 24 Peiraos Street, 3rd Floor, Office 301, Strovolos, 2023, Nicosia, Cyprus, during usual business hours on any business day, or by completing the Complaint Form.
