WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Summary Risk Indicator (SRI):

Lower Risk

Typically lower rewards

Higher Risk

Typically higher rewards

The SRI assumes that you keep the product for 5 years, which is the recommended holding period. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The Fund Manager has classified this product as 6 out of 7 which is the second highest risk class given that it is priced on a less regular basis and does not have any appropriate benchmark or proxy. This rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact the Compartment's capacity to pay you.

The risk category is not a target or a guarantee and may change overtime as the underlying investments' returns volatility changes. This product does not include any protection from future market performance so you could lose part of or your entire investment. You are advised to read and consider the risk factors described in the Prospectus of the Fund and the Compartment's Supplement.

WHAT HAPPENS IF AIFCAP MANAGERS LIMITED IS UNABLE TO PAY OUT?

Losses are not covered by an investor's compensation or guaranteed scheme. You will not face a financial loss should the Fund Manager default as the Compartment is considered to be a separate entity with segregated assets.

The Depositary will perform safekeeping duties for the Compartment's cash assets. In the event of the Depositary's insolvency, or its delegates, the Compartment may suffer a financial loss. However, such default risk is limited due to the rules set out in Article 19 of the AIFM Law and in the Commission Delegated Regulation (EU) 231/2013, which require a segregation of assets between those of the Depositary and the Compartment. The Depositary is liable to the Compartment for the loss by the Depositary or one of its delegates of assets held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control. For all other losses, the Depositary is liable in case of its negligent or intention failure to properly fulfil its obligations pursuant to the AIFM Law and any applicable rules and regulations.
